

Government Controlled Baptism!

Tell the government that controlling marriage is NOT enough!

Here are our demands for preserving the sacrament of baptism:

1. Licenses on file with the state to prove baptized status!
2. Tax breaks for baptized people!
3. Constitutional amendment declaring baptism is only for saved Baptists!

Silly? Absolutely. Immoral? We think so.

Campus Libertarian Party

When people vote to use police and prisons to spread their religion, they become the sinners.

Religion and force don't mix. America's third-largest, fastest-growing political party will protect religion from governmental perversion – by keeping them separated.
